Architect

Concord Country Club is one of more than 400 courses that Donald Ross designed throughout his career. Ross initially designed the original nine holes of Concord Country Club, which debuted to members on July 4, 1914. Those holes are still in use today as holes 1, 8, 9 and 13-18, though some were later lengthened. In 1925, the Club elected to hire Ross again to design the back nine, a project that was completed in 1930.
